Please provide any comments elaborating on your evaluation of <u>this instructor's</u> teaching of this course. -
• He was a great teacher and made coming in at 8am more fun. • Professor Carret made marcoeconomics fairly easy to understand and provided a lot of chances for repetition and enforcement by using in class assignments. Personally, the in class assignments helped a lot with understanding the lessons and retaining them. • Professor Carret was a great professor and showed that he cared about our success by always telling us about his office hours. He covered the material in an easy to grasp way and I have learned a lot more in this class than I did in micro because the information has actually stuck with me. • Great class, very difficult but informative. Intstructor was great. • Professor Carrett did a wonderful job teaching this course. I really enjoyed his in-class excersizes that helped me to understand and practice the material. • Well-organized and straightforward • Well run course, think the quizzes should be assigned during class instead of the ends of certain weeks. Was hard keeping track of when there were quizzes because Canvas does not send out notifications for created quizzes like it does for assignments. • The course material was effective in explaining real world situations and showed how they can be applied using certain formulas.
